**PLANNING OF A STORAGE SPACE IN RUAM SAMAI MUSEUM, CHIANGMAI, THAILAND.
Concept for Furnishing a Suitable Storage**

Abstract:

This thesis proposes guidelines for the Ruam Samai Museum's new storage facility in Chiang Mai, Thailand. Housing a diverse 6,000 objects collection of antiques, contemporary art, and Buddha statues, the facility requires optimized storage solutions. Emphasis lies on furniture and systems for large artworks, addressing limited specialized options in Thailand. Key considerations include collection analysis, space analysis, and careful material selection to prevent deterioration, ensuring the collection's preservation.

Keywords: preventive conservation, condition assessment, museum storage space, collection analysis, storage furniture
